By signing below I acknowledge that the Gambier Fire Equipment Group has been established by neighbours for the purpose of acquiring and training in the use of fire suppression equipment and to which we contribute money and/or time for that purpose. Out of our equipment fund we acquire group-owned equipment that ordinarily we would not be willing, or able to acquire individually.

*Our aim is purely to be a self-help group and we do not either individually or collectively undertake or hold ourselves out to be available for, or to respond to, calls for fire, accident or health related incidents either within the GFEG or to the Gambier Island Community at large. **In other words, we are not, either individually or collectively, trained fire fighters or a volunteer fire department.***

The purpose of our equipment is to provide each of us with access to fire suppression equipment that we can operate ourselves. Our equipment is comprised of pumps and hoses intended for our own use. It does not include flame resistant clothing, firefighters' turn-out gear, or breathing apparatus. We recognize that the most likely application and value of our group-owned equipment will be to provide us with tools that may help us to contain a fire from spreading to or from the forest, or to other property. We are each of us responsible only to our self for being familiar with the function and use of our equipment and the current state of its condition and maintenance.

For 2008, it is suggested that an equipment fund contribution of \$50 each would help us achieve our equipment and maintenance goals. Any other amount, great or small, will be equally appreciated!
